If the furniture is made of wood, tactile sensations alternate between the soft of the fabric and the rough of the wood. Combining rich and warm colors such as coral and rust, with blue and hints of pink in delicate tones, helps to regain optimism and boldness. A glamorous and balanced palette that exploits contrasts, without being too bright.

Focus Eco for a modern salon and a better future

Green Hug and Green Star Class are available also in eco version with FSC certified wood in the two FRONDA essences, with an extra cost.
